Customer Service Station 110 and 116

- Five station tours to children and their parents.
- Participated in the Kennecott Smelter Training.
- Helped Smith's Grocery Store with their fundraiser for Primary Children's Medical Center. We helped fill and then run the dunk tank for several hours to help raise money for the hospital.
- Helped train Paramedic and EMT students during the month of April.
- Participated in Wildland Urban Interface Training, gearing up for the upcoming Wildland Season.
- Advanced Cardiac Life Support, Extrication and Rapid Intervention Training

Safety Message

Kick of Summer Right...and Safe!

Memorial Day weekend has become synonymous with the beginning of summer by celebrating with barbecues, outdoor cooking and camping. As summer begins, the Office of the State Fire Marshal would like to remind everyone to be careful with any activity that could trigger a wildfire. It doesn't take much for a small fire to turn into a large blaze. The State Fire Marshal's Office also wants to remind everyone that knowing a few fire safety tips will help everyone have a fire safe summer.

Campfire Safety

It is important to follow the campground rules for the use and extinguishment of campfires.

Build campfires where they will not spread. A 5 to 10 foot circle around the fire should be cleared of all flammable materials and your tent should be at least 15 feet away.

Keep campfires to a reasonable and manageable size, no larger than 3 feet x 3 feet – do not let them get out of hand.

Thoroughly drown the fire, stir it and douse it again with water – do not leave a fire until it is OUT COLD.

Safety Message

Kick of Summer...Continued

Barbecue Safety

Always inspect your grill at the beginning of the season, checking all connections and supply hoses. Make sure the venturi tubes that deliver gas to the burner are not blocked.

Do not overfill the propane tank. Always store tanks outside, in a well-ventilated area.

Keep barbecues 5 to 10 feet away from your house or other flammable material. Never barbecue in enclosed areas as carbon monoxide could pose a danger.

Do not add fluid to hot coals. The flame can flash back up into the container and explode.

Dispose of hot coals properly; douse them with plenty of water and stir them to ensure that the fire is out. Never place them in plastic, paper or wooden containers.

General Fire Safety

Ensure children and pets are kept well away from fire. Teach your children to report any loose matches or lighters to an adult immediately.

Make sure everyone knows to Stop, Drop and Roll in case a piece of clothing does catch fire. Call 911 if a burn warrants serious medical attention.

Never leave your fire unattended and keep plenty of water nearby.

Do not wear loose clothing while tending a fire and tie back long hair.
